

Celebrate

Week of the Young Child

APRIL 13-17th

Parents/Guardians: Below are some fun activities that you could do together with your child(ren) to celebrate **The Week of the Young Child**.

April 13 – Music Monday

Not only does music develop creativity, but children can learn literacy, language, and math skills through music. Learn a new song and sing along with your child. Have a dance party or make your own instruments from items in your home.

April 14 – Tasty Tuesday

Create healthy snacks and learn how to follow recipes. This day focuses on teaching young children about healthy eating and fitness. Have children try making an easy recipe along with a parent(s).

April 15 – Work Together Wednesday

Help young children develop social skills and learn to work together by building together. Children can make a fort or build a block city at home. Pretend to be at a fast food restaurant or grocery store! Have your children help with simple chores like sorting or folding laundry, putting away groceries or getting ingredients for meals, and setting the table.

April 16 – Artsy Thursday

Art is very important for developing creativity and fine motor skills. Have children explore their senses through creating shapes with playdough, or teach children about drawing different patterns. Make your own playdough, slime, or puffy paint!

April 17 – Family Friday

Celebrate those who support young learners. Family stories and pictures are shared on this day to acknowledge the role families play in a child's learning. Parents can read a favorite children's book to their early learner or take their child on a picnic. Play a game or complete a puzzle together!
